

SEEKER: TD

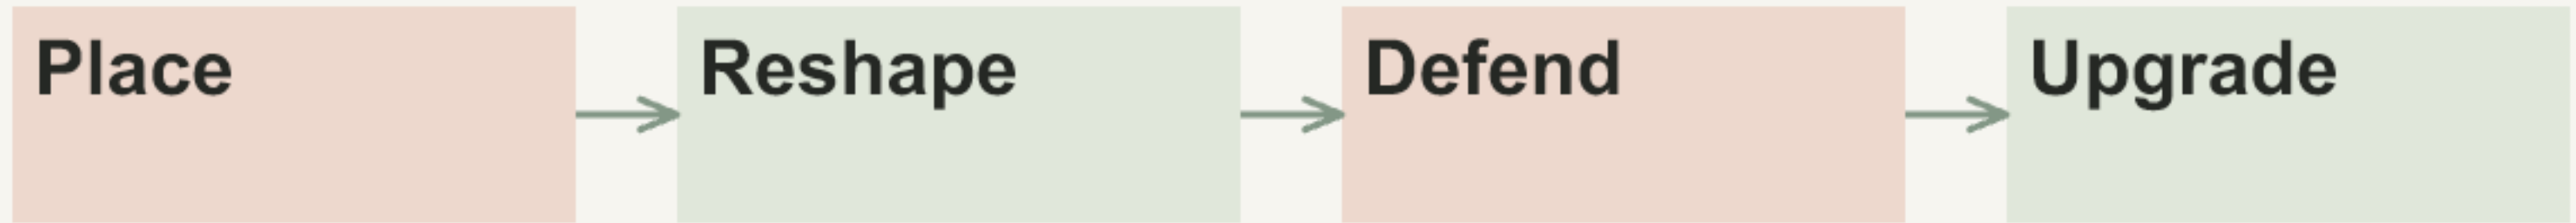

Build the maze.
Defend the paper world.

MONOLITH
Daniyar Gabdullin / Solo developer

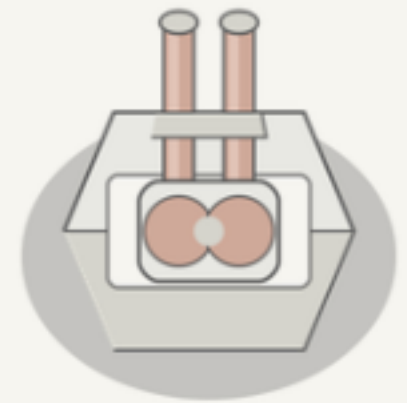

Player agency

Every tower changes the route.

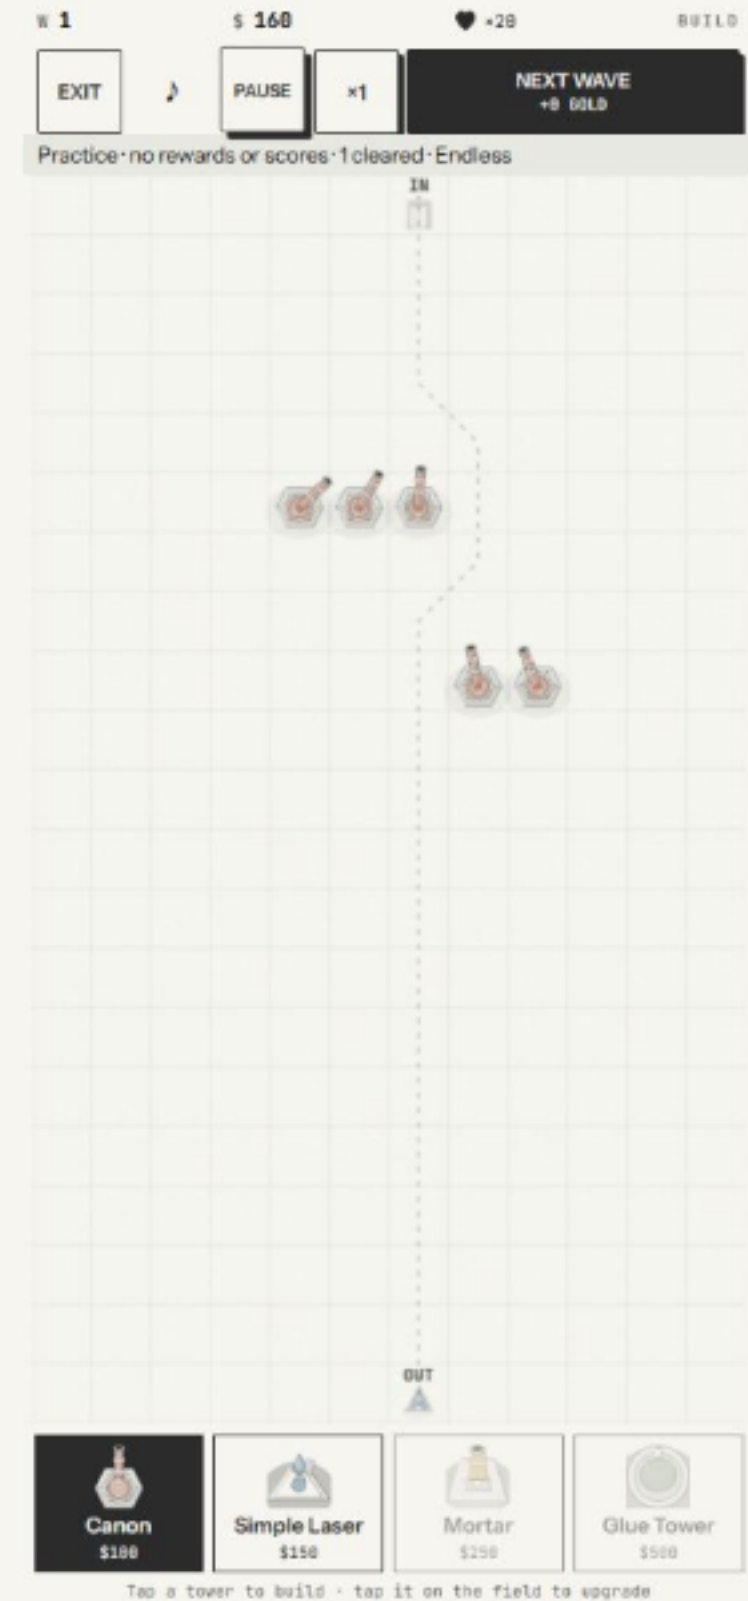

Longer routes buy time. Firing positions decide how you use it.

A dynamic maze

A maze shaped by your placements

Build on the grid. Keep a route open.
Adapt as the waves grow.

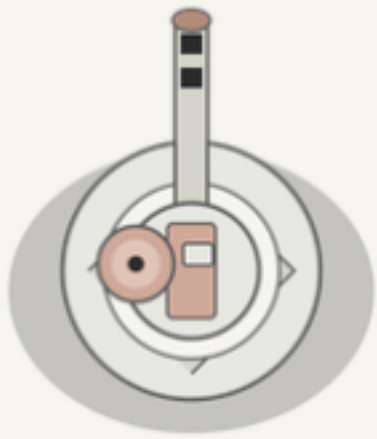

Games on Seeker

Game	Core play	Progress & competition	Position
Epiko Regal	PvP tower defense + collectible cards	Arenas, trophies, guilds	Hero/card battles
Epiko Bricks	Match-3 summons + fortress defense	Incoming waves	Puzzle-driven defense (Open Beta)
Slimecoin	PvP puzzles & arcade	Cash-prize matches	Onchain skill competition
SEEKER: TD	Player-built maze + tower synergies	Endless / timed / wave modes	Local paper-world PvE (Prototype)

Our focus: player-built routes and local PvE

The current roster
